***HOME**

Unfortunately April has not been the month that we wanted due to our 2nd covid outbreak. Everyone unfortunately has spent a lot of time in their rooms to try and keep safe from catching it. We couldn't celebrate easter properly which we are so upset about although everyone still enjoyed an easter egg or two!

Happy Birthday

This month we said Happy Birthday to Ina. Due to covid it wasn't the day it was meant to be but we hope we managed to give a good a day as possible!

Saying goodbye to our much loved residents

It is with a very heavy heart that we have had to say goodbye to 2 of our much loved residents. Pam and Tony we hope you can now rest in peace. You will be missed so much.

LORRAINE'S THOUGHTS FOR THE MONTH

We were so looking forward to Easter and had many plans and entertainment booked, sadly Covid 19 outbreak put paid to this again, we have continued to remain positive and provide the emotional and social support that our resident's really need when they keep being isolated in their rooms and not being able to keep their relationships going.

We have every thing crossed that May is going to be our month and will have lots of planned outdoor activities now the weather is getting warmer and our lovely gardens are springing into colour.

We are also getting excited and planning our garden party come street party for the Queens Jubilee with an entertainer to lift our spirits and have fun and laughter in the home again, as Beech certainly knows how to have fun and party.

Again I want to say a huge thankyou to my very supportive and dedicated team of staff who once again in our outbreak have shone and given up there time to ensure the residents care and well-being has not suffered, also for our very supportive and understanding families, we hope very soon we can start enjoying life again and our resident's get to see how nice it is to live in Beech House, **Goodbye restrictions Hello life.**
